Statement of Purpose

Modern Psychological Studies (MPS) is a psychological journal devoted exclusively to publishing manuscripts by undergraduates. We are continuously seeking quality manuscripts for publication, and will consider manuscripts in any area of psychology. Although MPS primarily focuses on results from experimental research, there are also opportunities for theoretical papers, literature reviews and book reviews to be published.

MPS is edited and reviewed by undergraduate students. We strive to make the journal submission process a learning experience and to encourage quality research. By placing the journal in the hands of undergraduates, the editorial staff at MPS wish to emphasize to fellow undergraduates that:

We are capable of doing meaningful, quality work, and of communicating that work to interested students and professionals. We are capable ourselves of directing the meandering focus of the psychological profession.
