Background & Objectives

- *Psychology Degree*
 - Fourth most popular undergraduate degree
 - 54% underemployment rate in 2018
 - Failure to recognize the value
 - Unable to translate them into the workplace
- *Objectives*
 - Analyze how programs convey the value of psychology trainings to students
 - Assist in the application of psychology skills in the workforce

Approach

- Participants:*
- Senior undergraduate Psychology majors
- Method:*
- Using survey to gauge level of knowledge
 - Examining participants' perceptions of skills gained through psychology curriculum such as:
 - Critical Thinking
 - Analytical Concepts
 - Interpersonal and Team Skills

Implication

- Analyze how programs convey value of psychology trainings to students to better understand real-world implications
- Assist students in understanding application of transferrable, critical, and learned skills into a variety of career paths
